```
Josh Wilson
Key = G
Tempo 73
Intro : G C Em C D
Verse 1:
                      C
G
Do you wonder why you have to feel the things that hurt
If there's a God who loves you, where is He now
G
Maybe there are things you can't see
                                                      C
And all those things are happening to bring a better ending
Someday somehow you'll see, you'll see
Chorus 1:
G
                                    Bm/F#
 Would you dare, would you dare to believe
\mathsf{Em}
  That you still have a reason to sing
  Cause the pain that you've been feeling
 It can't compare to the joy that's coming
G
 So hold on you gotta wait for the light
```

My friend, you know how this all ends, you know where you're going
You just don't know how you'll get there, so say a prayer
                                              C/G
And hold on cause there's good for those who love God
                  Em
But life is not a snapshot, it might take a little time
But you'll see the bigger picture
