                  C  
Somedays I feel like

I got nothing left  
                  Am  
Like I'm running on empty  
G                  F  
Down to my last breath  
                  C  
My feet are so heavy  
                  Dm  
Don't wanna carry the load  
                  Am          G  
But then I think of You standing there  
                  F  
At the end of the road

Chorus 1 :

                  C                  Dm  
I'm in this race, in this race

In this race to run  
(repeat 2x)

Verse 2 :

                  C  
When the miles come slowly  
                  Dm  
Put my heart to the test  
                  Am          G  
And the wind comes blowing down  
                  F  
Against my chest  
                  C  
I'll lean into the burning  
                  Dm  
Press in to the strain  
                  Am          G  
And I'll know it was worth it all  
                  F  
When I see Your face

Chorus 2 :

                  C                  Dm  
I'm in this race, in this race

Every step I take

Is worth the pain
