

# I'm Alive - Peter Furler

♩=125

Verse 1&2

1. When I was locked in-side my head      When I was lost in a maze of doubt  
2. I was sure of all I knew      I knew the world was mine to claim

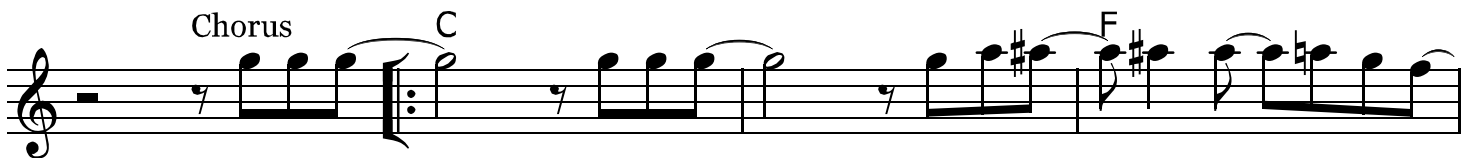

You called my name and woke me up      You called my name and let me out  
I had di-rect -ions print -ed out      And then I hit a world of shame

And when I chased one more mir-age      'Til I was tired and parched a-gain  
Out there a-lone and left to die      Caught out from You, my sole sup-ly

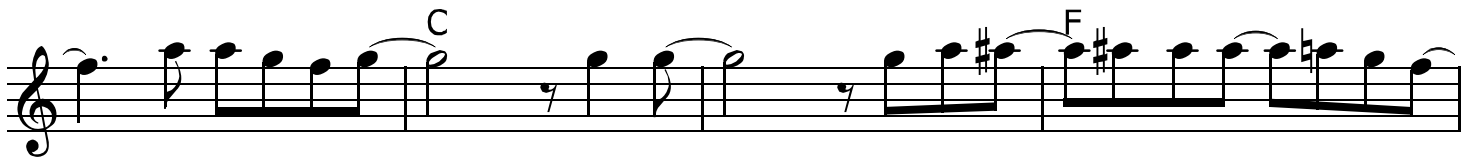

You gave me one more cup to fill      And sent me one more de -sert rain  
You shed Your tears for me and then      You took my hand and raised me high

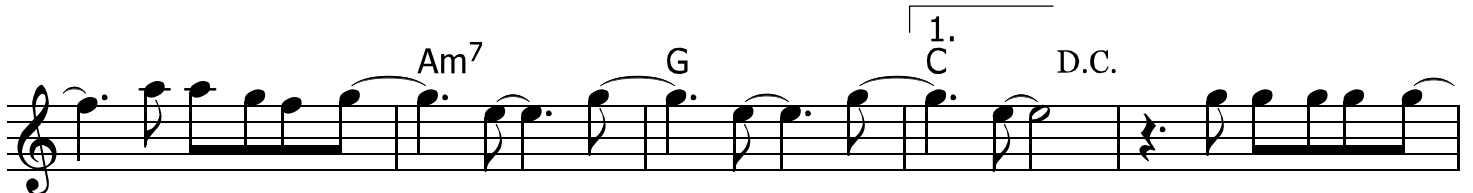

Chorus

I'm a-live,      I'm on fire      And my spi - rit burns with de-sire

You set me a-live      But I      am with no -where to hold it in-side
